Release Note for SmartVPN Client

Firmware Version:	5.6.3
Release Type:	Normal
Applied Operation System	Windows Vista 32-bit/64-bit, Windows 7 32-bit/64-bit, Windows 8, Windows 10, Windows 11, Windows Server 2012 R2

The Smart VPN Client is a VPN configuration utility. It makes VPN configuration easy for users. It could support the following VPN schemas, PPTP, L2TP, IPSec, OpenVPN, WireGuard VPN and DrayTek SSL Tunnel.

New Features

- Support AES-GCM and SHA512 options for OpenVPN profile.

Improvement

- Improved: Improve the application security.
- Corrected: An issue with failure to establish IPsec VPN tunnel connection.
- Corrected: An issue with setting more than 120 characters for the length of the SSLVPN password.
- Corrected: An issue with failure to establish an OpenVPN connection with the OpenVPN Client version 2.6.0 (and above).

Known Issue

- SmartVPN Client will possibly pop up an error "Hardware failure in port or attached device." if a user tries to reconnect SSL VPN after a long-time performance test with SSL VPN.

Note

- No longer support Windows XP system.
- The Browse button for config import and export was removed for enhanced security. Please enter the file path to import or export the config file, e.g., C:\Users\SmartVPN\vpn.cfg.
