Release Note for SmartVPN Client

Firmware Version:	5.7.0
Release Type:	Normal - Upgrade recommended when convenient
Applied Operation System	Windows Vista 32-bit/64-bit, Windows 7 32-bit/64-bit, Windows 8, Windows 10, Windows 11, Windows Server 2012 R2

The Smart VPN Client is a VPN configuration utility. It makes VPN configuration easy for users. It could support the following VPN schemas, PPTP, L2TP, IPsec, OpenVPN, WireGuard VPN and DrayTek SSL Tunnel.

New Features

- Support EasyVPN (for Vigor2136ax, Vigor C410ax and Vigor C510ax).
- Add Portuguese translation for the 2FA authentication window.

Improvement

- Improved: Re-define the authority of the system administrator and the general operator. Any Window user with standard privileges can import/export the configuration via file selection.

Known Issue

- SmartVPN Client will possibly pop up an error "Hardware failure in port or attached device." if a user tries to reconnect SSL VPN after a long-time performance test with SSL VPN.

Note

- No longer support Windows XP system.
